Advanced Technology For Skin Rejuvenation

Facial & Body Sculpting

The Beautiful Image Facial & Body Sculpting procedure is a revolutionary way to safely and effectively tighten and firm the skin.

This technology is performed using exclusively designed facial and body sculpting wands. These “magic” wands glide over the treated area and emit a gentle micro current to the cells, rehabilitating and firming the facial muscles. The current penetrates deep into the face or body through the connective tissues of the skin via specific acupuncture points, thus causing increased production of collagen and elastin which smooth out lines and soften wrinkles.

Micro Sonic Infusion Cosmetic System

As seen on:

Beautiful Image Micro Sonic Infusion System goes a step beyond your conventional micro current wave form technology to aid in increased absorption of nutrients with our improved “Natural Skin Support” conductor.

The results are clear! Studies have proven that using our micro current system with its “magic” wands and support essentials, have shown improved skin quality along with decreased lines and wrinkles.

The recommended number of procedures is determined upon your age and skin condition. Clients are able to see noticeable improvement after their very first visit. You will reap even greater benefits with the continued use of Micro Sonic Infusion (MSI) System, as over time your muscles respond to repeated use, allowing you to maintain your youthful appearance.

The Results

You can expect to achieve overall improved skin quality and a natural youthful appearance to the face and body with the advanced technology you attain from our Micro Sonic Infusion System.

People all over the world are discovering a better way to achieve beautiful looking skin with a more natural look, and without the unnatural appearance that is often a result from cosmetic surgery.

Our procedure truly puts the “TREAT” in treatment. The experience in itself is so wonderfully relaxing, that you may find yourself drifting off to sleep - only to wake up to a dream come true.
